# News App

By

Mahmoud Hussein Abdel-alim

Stay informed with world and local news as it happens

Stay up to date with the latest worldwide and local news in different and most currently hot topics around the globe, and you can search for a specific topic or a keyword to get latest news from around the world about it.

Splash screen

This is the screen first appeared to the user when he clicks the app icon in the launcher and it's displayed for 2 seconds.
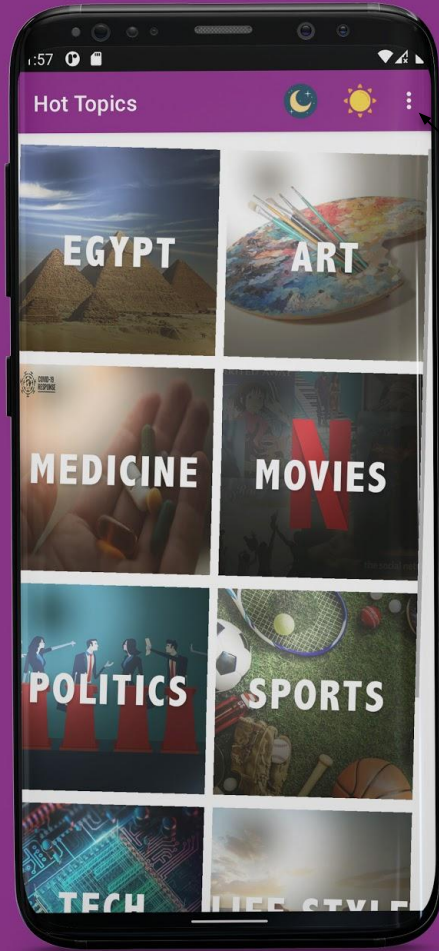

Home Screen

-This is the app home screen, the first screen appeared to the user after the splash screen.

-The main screen Action bar contains a menu and two buttons to enable/disable Dark mode and Light mode. (see next slide)

-The home screen is displayed with a beautiful animation as it's wobbled to the screen.

-This is the app splash screen in dark mode after the user pressed dak mode icon in the previous screen

-The user preferred Style mode is saved and set to the current theme until the user change it manually through the Light mode icon in the Action bar.
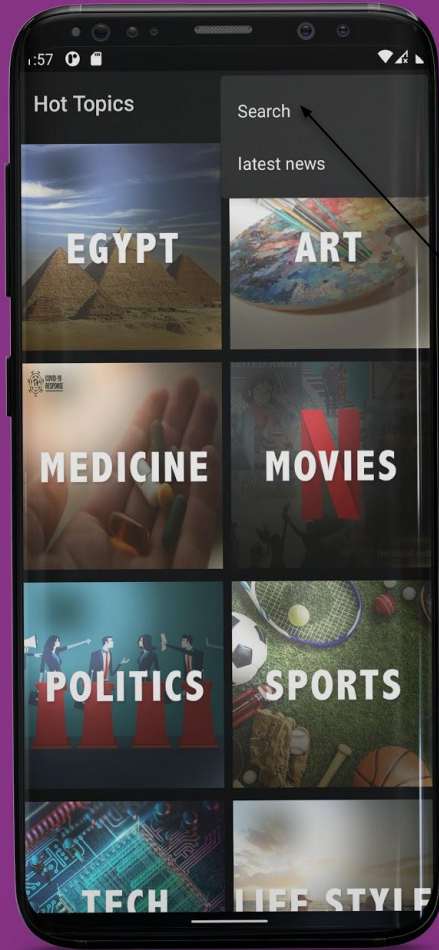

Home Screen

-The app main menu in the Action bar contains two option:
  - **Search to search** a specific news or topic
 - **Latest News :** display latest news happening right now all over the world

(see next slide)

Home Screen

-This is the menu opened after clicking on the three dots in the Action bar.

-When the user clicks on search Item
   (see next slide)

Home Screen

-This is the app home screen state after clicking the search menu item (see previous slide for reference)
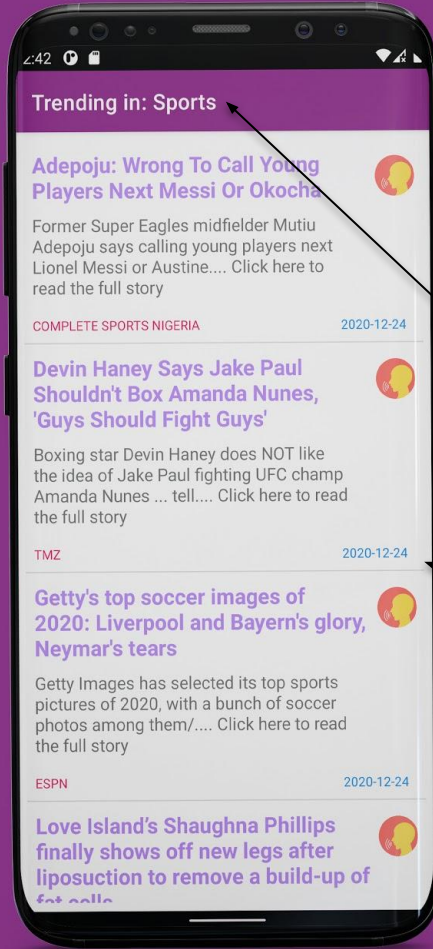

-A new section is displayed to handle the search

-if the user clicks the search icon before entering a keyword:

-This is the EditText where the user enters the keyword or topic to search latest news about it, and it only accepts English letters.

- this toast is displayed and nothing happens
